Relief sculpting – cartoon face:

This course is aimed at introducing you to the concept of relief sculpting of a cartoon face style cake. The session begins with the cutting of the cake, layering with Ganache and set up of the overall cake. You will be taught how to sculpt the shape, cover it with icing and finish the design. The aim of this course is to introduce you to a range of standard set up techniques such as slicing, filling and sculpting as well as decorating techniques such as covering, painting, and piping, as well as giving you a basic understanding of proportions, decorating skills and colour matching. You will be supported every step of the way by your teachers, giving you hints and technical support, ensuring that you will successfully achieve an amazing cake that will exceed your expectations.
